

Download eBooks to Your iPad, iTouch or iPhone

For ePUB formatted eBooks:

Here's what you'll need to get started:

- The **Overdrive® Media Console iPhone app** (from the **App Store** located on your device)
 - An **Adobe ID** to authorize the **Overdrive® Media Console app** (Note: you just need the ID; you don't need **Adobe Digital Editions** for this to work. You will be prompted to **type in your ID or Register** when downloading the app)
 - Your **Glenview Public Library card**
1. Go to the **Overdrive® Media Console app**
 2. Click on **GET BOOKS** in the upper right corner
 3. To find **Glenview Public Library**, type in **zip code 60025**
 4. Click on **Glenview Public Library/MY MEDIA MALL** (this will open a browser window and take you to the MyMediaMall® website www.mymediamaill.net)
 5. While in **MyMediaMall®**, find an **eBook** in an **ePUB** version
 6. Add the **ePUB title** to your cart
 7. Check out using your **Glenview Library card number** (you will not need a password once you select the library as Glenview)
 8. Click on **DOWNLOAD**
 9. The book should appear in your **Overdrive® Media Console App Library** where you can open it and enjoy reading

iPad

For Adobe PDF formatted eBooks:

Here's what you'll need to get started:

- The latest version of the **free Bluefire® app** (from the **App Store** located on your device)
 - An **Adobe ID** used to authorize the **Bluefire app** (Note: you just need the ID; you don't need **Adobe Digital Editions** for this to work. You will be prompted to **type in your ID or Register** when downloading the app)
 - Your **Glenview Public Library card**
 - An **email account accessible on your mobile device**. You will need to use the native mail app on your device, not a **Gmail** or other app
1. From a personal computer, go to www.mymediamaill.net and check out a PDF version eBook using your Glenview Library card number (you will not need a password once you select the library as Glenview)
 2. Download the title
 3. Locate the file you just downloaded that has the extension **.acsm** (which stands for **Adobe Content Server Message**). It will likely have the title in the filename, along with some numbers (most likely found in your **DOWNLOADS** folder)
 4. E-mail that file to yourself so that you will be able to get to it on the **iPhone/iPad/iTouch**.
 5. Open your e-mail on your device and select the attachment you just sent.
 6. You are ready to read. See the **Info page** for the details on your lending period.
