Board Game Description

Players: 2 // Time: 30 Min

Age: 10+ // Weight: 1.51

The object the game is to gain points by mounting profitable archaeological expeditions to the different sites represented by the 5 colors. On a player's turn they must always first play one card, either to an expedition or by discarding it to the appropriate discard pile, and then draw one card. The player must be careful of undergoing too many expeditions, because if they don't explore far enough they may *lose* points!

You are an explorer of ancient cities. Will you find lost treasure, or will you come away empty handed?

Lost Cities

Inventory

- 1 rulebook
- 1 game board
- 60 playing cards
