Board Game Description

Players: 1-8 // Time: 15 Min

Age: 7+ // Weight: 1.37

Using a selection of 144 plastic letter tiles in the English edition, each player works independently to create their own 'crossword'. When a player uses up all their letters, all players take a new tile from the pool. When all the tiles are gone, the first player to use up all the tiles in their hand wins.

*It's like Scrabble, but
without the board!*
